-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Restriction Requirement

Restriction to one of the following inventions is required under 35 USC 121:

I. Claims 1-8 drawn to an engine shut-down apparatus classified in Class 60, subclass 39.091, and

II. Claims 9-11 drawn to an engine shut-down method classified in Class 60, subclass 779.

The inventions of Groups I and II above are distinct because the method of Group II could be practiced with apparatus materially different than that of Group I. The claimed method, for example, does not necessarily require a fuel shut-off valve as specified in the claimed apparatus. Fuel interruption in the method could be alternatively performed by merely stopping the fuel pump.

Because these inventions are distinct for the reasons given above and require separate classification and/or divergent fields of search, restriction for examination purposes as indicated is proper.

Applicant is advised that even in the event that the restriction requirement is traversed, the response to this requirement to be complete must include an election of the invention to be examined.

In addition to the above restriction between apparatus and method, further election of individual species is required.

Art Unit: 3746

Species Election

This application encompasses two different species of the inventive subject matter as shown in Figures 3 and 4 respectively. Pursuant to 35 USC 121, applicant is required for a complete response to (1) elect a single disclosed species and (2) list all claims readable on the elected species including any claims subsequently added (MPEP 809.02(a)).

Claims 1, 5 and 9 appear to be generic.

Applicant is further advised that a mere argument alleging that a generic claim is allowable will not satisfy a species election requirement. For a complete response, applicant must elect a single species and list the claims readable on that species as set forth above. (Note that the option of a telephone election has not been offered in this instance because the inventor and attorneys are located outside the United States.)
